

Sec. 36-166. - Highways designated as Class B.

This section shall be in force for the county highway department to designate all or parts of highways maintained by the highway department as Class B highways for the purpose of establishing weight limitations to preserve the roadbeds and ensure these roads as safe traffic carriers and signed in accordance with Wis. Stats. §§ 349.16(1), (2) and (3).

Weight limitations on **class "B" highways** are 60% of **class "A" highway** weight limitations. **Class "B" highways** includes those county trunk **highways**, town **highways** and city and village streets or portions thereof, which have been designated as **class "B" highways** by the local authorities.
