Agenda items include: 2021-22 Report; future projects; Stormwater Runoff Guidance (Direct and Indirect Connection within Districts); 75' Structure Setback from legal drains; financial report; 2022 assessment rate payable in 2023.

A Public Hearing will be held for a revision to the assessment benefits policy for each district concerning property owners adjacent to legal drains that are in violation of not maintaining the buffer corridor from the top of the legal drain ditch as specified by the Board. The revision would allow for a penalty to be charged to the property owner after notification by the Board to correct the violation has failed. The violation penalty for parcels where vegetation is not re-established will be assessed a penalty of 10 times (10x) the annual district special assessment for the parcel in question for that year and each subsequent year until the corridor/buffer is re-established.
